

WORLDWIDE QUALITY FROM AUSTRIA

WHERE DECADES OF EXPERIENCE, INNOVATION AND COMPETENCE ARE, WHERE STANDARDS ARE DEVELOPED AND APPLIED, WHERE HIGH DEMANDS ARE SET ON TECHNOLOGY AND MATERIALS, WHERE EUROPEAN KNOW-HOW AND GLOBAL STRUCTURES MERGE: THERE YOU WILL FIND EGSTON POWER SUPPLIES AND CHARGERS.

The products of our experience are the solutions we develop and produce in the business fields of industrial components, automotive solutions, cable systems, power supplies and charger.

EGSTON stands for worldwide experience and know-how in:

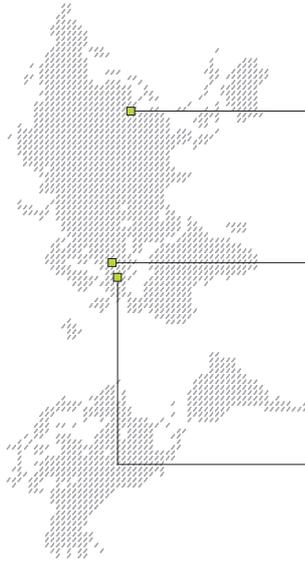

- Inductive components
 - Automotive solutions
 - Cable systems
 - Power supplies
 - Subassemblies
- As we aim for highest standards we continually expand and complement our innovations and competences. This includes for instance the most modern plastics moulding technologies as well as developing and producing complete subassemblies – as one-stop sourcing partner for you.

EGSTON

WORLDWIDE AUSTRIAN POWER

ADAPTED & PLUGGED IN

We give of our best in quality and technology in the field of power supplies and chargers. After all, what counts is that your product gets the current it needs. At the same time we are fully aware that your solution fulfils today's requirements and needs as economical as possible with the right weight and size. Highest energy efficiency is what we aim for.

SMALL & HANDY

Standard power supplies, embedded power supplies, print modules as well as customer specific power supplies and chargers are products of constant innovation and long experience at Egston. The modular design means rapid adaptation to your requirements and the high precision engineering means high reliability. Our products have been designed for your best in class modern design to a series product, reliable just the same high personal care and maximum attention to ensure your satisfaction.

VOLTAGE & CURRENT

These are the fields where our power supplies and chargers are put to the test. We leave nothing to chance, we would rather leave it to our experienced engineers, developers and designers. They have detailed knowledge of standards and regulations for all applications - whether domestic, medical or telecommunications - and every other international application too. Our worldwide production and distribution network and the modern logistics (such as Kanban) take care of every-thing else, increasing time and cost efficiency.

**INNOVATION IS
CATCHING
POWER
SUPPLIES**

INNOVATION IS ALWAYS THE PRODUCT OF INDIVIDUAL FACTORS. THESE HAVE TO BE BROUGHT TOGETHER TO A COMMON DENOMINATOR, TO WIN YOU, OUR CUSTOMER, AS A PARTNER. WELCOME TO THE WORLD OF EGSTON POWER SUPPLIES.

WORLDWIDE AUSTRIAN POWER

**EGSTON
POWER SUPPLIES**

Starting with your ideas and wishes we develop your individual application or revert to standard modern units, which guarantee high flexibility and cost efficiency.

Field

1. E2 standard family 6 W - 30 W plug in power supply family, 12 W (EU/US), 12 W (US/US), 12 W (US/US), domestic and print modules, domestic or medical versions.

2. E2 direct plug in family (4 country versions: EU/US/US/US)

3. Charger suitable for charging PDA/MPH/level/PA; 4 country versions: EU/US/US/US also available as desktop

4. Flush Box Module 12 W 90 - 264V input voltage 12 W for 230 V input voltage

5. Special types individual customer solutions

6. M120 type 6 W - 12 W plug in power supply EUIKUS 3 country versions: In EU-association

Advantage

delivery within 4 weeks, worldwide use, delivery within 4 weeks available in office - communications - domestic - or medical versions

flexible and adaptable to customer requirements software adaptable to industry or medical safety standards

smallest installation dimensions, embeddable case installation is possible, high humidity resistance

customer specific development and manufacture by an experienced producer

classic design, well known in the market, small modern technology
